Peter Webb is a registered Coach Psychologist with an applied research focus in the psychology of *wisdom*. Wisdom is the pragmatic application of life knowledge, discernment, and compassion for making difficult choices in life. We activate our *wisdom resources* when we're faced with a dilemma. "Which fork in the road should I take?" "Will I regret this decision?" Everyone has wisdom to a greater or lesser degree. Peter's practice equips you with the tools and techniques of wise thinking to improve your odds of making the *right* decision next time!

Peter is the author of "[Coaching for Wisdom: Enabling Wise Decisions](#)" (2008), in: D.B. Drake, K. Gørtz, & D. Brennan (Eds.) *The Philosophy and Practice of Coaching* (pp. 161-175), San Francisco, CA: Jossey-Bass.

Personal Coaching

Personal coaching is of most benefit when you're struggling to make a change in your life but you're not sure what or how. Personal coaching will help you understand your strengths and your intentions and guide you toward the life you really want to live!

Engagements are usually conducted over a pre-determined time period or number of sessions. This helps you to stay motivated. However, the first session is a stand-alone. You will take away valuable insight into your *authentic self* and the clarity of your *deepest intentions*. If you feel right about personal coaching at that time then we can agree on a suitable program.

Payment for the first session is requested at time of visit. Fees do not carry GST. However if you are paying through a company with an ABN, then a GST Tax receipt will be issued. Fees for coaching psychology services may be claimed through your Health Fund. Receipts with a Medicare Provider Number will be issued on request.
